## **GSA SCHEDULE 70**

**Note: Contractor has been awarded all SINs under the American Recovery and Reinvestment Act Program**

**Note: Prices Shown Herein are Net (discount deducted)**

### **SPECIAL ITEM NUMBER 132-8 PURCHASE OF NEW EQUIPMENT**

#### **FSC CLASS 7010 - SYSTEM CONFIGURATION**

- End User Computers/Desktop Computers
- Professional Workstations
- Servers
- Laptop/Portable/Notebook Computers
- Large Scale Computers
- Optical and Imaging Systems
- Other Systems Configuration Equipment, Not Elsewhere Classified

#### **FSC CLASS 7025 - INPUT/OUTPUT AND STORAGE DEVICES**

- Printers
- Display
- Graphics, including Video Graphics, Light Pens, Digitizers, Scanners, and Touch Screens
- Network Equipment
- Other Communications Equipment
- Optical Recognition Input/Output Devices
- Storage Devices including Magnetic Storage, Magnetic Tape Storage and Optical Disk Storage
- Other Input/Output and Storage Devices, Not Elsewhere Classified

#### **FSC CLASS 5995 - CABLE, CORD, AND WIRE ASSEMBLIES: COMMUNICATIONS EQUIPMENT**

- Communications Equipment Cables

#### **FSC CLASS 5820 - RADIO AND TELEVISION COMMUNICATION EQUIPMENT, EXCEPT AIRBORNE**

- Two-Way Radio Transmitters/Receivers/Antennas
- Broadcast Band Radio Transmitters/Receivers/Antennas
- Microwave Radio Equipment/Antennas and Waveguides
- Satellite Communications Equipment

NOTE: Installation must be incidental to, in conjunction with and in direct support of the products sold under SIN 132-8 of this contract and cannot be purchased separately. If the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply. In applying the Davis-Bacon Act, ordering activities are required to incorporate wage rate determinations into orders, as applicable.

### **SPECIAL ITEM NUMBER 132-12 - MAINTENANCE OF EQUIPMENT**

FPDS Code J070 - Maintenance and Repair Service

- Maintenance
- Repair Service

## **SPECIAL ITEM NUMBER 132-32-TERM SOFTWARE LICENSES & 132-33-PERPETUAL SOFTWARE LICENSES**

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self-diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service – which is categorized under a difference SIN (132-34).

### **FSC CLASS 7030 - INFORMATION TECHNOLOGY SOFTWARE**

#### **Large Scale Computers**

Operating System Software

Application Software

#### **Microcomputers**

Operating System Software

Application Software

Communications Software

NOTE: Software interfaces, if any, may be located at <http://www.core.gov>.

## **SPECIAL ITEM NUMBER 132-34 - MAINTENANCE OF SOFTWARE AS A SERVICE**

Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person communications regardless of the medium used to communicate: telephone support, on-line technical support, customized support, and/or technical expertise which are charged commercially.

Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

## **SPECIAL ITEM NUMBER 132-50 - TRAINING COURSES (FPDS Code U012)**

### **SPECIAL ITEM NUMBER 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES**

FPDS Code D301 IT Facility Operation and Maintenance

FPDS Code D302 IT Systems Development Services

FPDS Code D306 IT Systems Analysis Services

FPDS Code D307 Automated Information Systems Design and Integration Services

FPDS Code D308 Programming Services

FPDS Code D317 Creation/Retrieval of IT Related Automated News Services, Data Services, or Other Information Services (All other information services belong under Schedule 76)

**Note 1:** All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

**Note 2:** Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

**Note 3:** This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

**CUSTOMER INFORMATION**  
**INFORMATION FOR ORDERING ACTIVITIES**  
**APPLICABLE TO ALL SPECIAL ITEM NUMBERS**

**SPECIAL NOTICE TO AGENCIES: Small Business Participation**

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service ([www.gsaadvantage.gov](http://www.gsaadvantage.gov)). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page ([www.fss.gsa.gov](http://www.fss.gsa.gov)) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

**2. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)**

- a. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:

Special Item Number 132-8 Purchase of New Equipment  
Special Item Number 132-12 Equipment Maintenance  
Special Item Number 132-32 - Term Software Licenses  
Special Item Number 132-33 - Perpetual Software Licenses  
Special Item Number 132-34 - Maintenance of Software as a Service  
Special Item Number 132-51 - Information Technology Professional Services

- b. The Maximum Order value for the following Special Item Numbers (SINs) is \$25,000:

**Special Item Number 132-50 - Training Courses**

**3. MINIMUM ORDER The minimum dollar value of orders to be issued is \$100.00****4. GEOGRAPHIC COVERAGE (delivery area)**

*Domestic delivery* is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

*Overseas delivery* is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- ☒ [X] The Geographic Scope of Contract will be domestic and overseas delivery. (SIN 132-32, 132-33, 132-34, 132-50, 132-51)  
☐ [ ] The Geographic Scope of Contract will be overseas delivery only.  
☐ [ ] The Geographic Scope of Contract will be domestic delivery only.

**5. Points of Production: See product listing by manufacturer****6. Statement of net price: see pricing under individual manufacturers' products****7. Quantity discounts: none****8. Prompt payment terms: none**

**9a. Notification that Government purchase cards are accepted at or below the**

micro-purchase threshold. Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number can be used by ordering activities to obtain technical and/or ordering assistance:

**210-379-0404**

**9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold. See 9a**

**10. Foreign items (list items by country of origin): not applicable**

**11a. Time of delivery. (Contractor insert number of days.)**

The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
132-51	To be negotiated between Alamo City Engineering Services, Inc. (ACES) and Ordering Activity at the time the order is placed.
132-50	14 Days
132-32	14 Days
132-33	30 Days
132-34	30 Days
132-8	30 Days
132-12	30 Days

**11b. Expedited Delivery:** Items available for expedited delivery are noted in this price list. Contact contractor for availability.

**11c. Overnight and 2-day delivery:** Contact contractor for availability.

**11d. Urgent Requirements.**

When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

**12. F.O.B. point(s): destination**

**13a. Ordering address**

**Alamo City Engineering Services, Inc.  
6391 De Zavala Road, Suite 203A  
San Antonio, TX 78249  
Tel: 210-379-0404  
Fax: 305-422-6396**

**13b. Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

#### 14. Payment address

**Alamo City Engineering Services, Inc.**  
**6391 De Zavala Road, Suite 203A**  
**San Antonio, TX 78249**  
**Tel: 210-386-7340**  
**Fax: 305-422-6396**

#### 15. Warranty provision

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

#### **The Manufacturers standard commercial warranty applies.**

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: 6391 De Zavala Road, Suite 203A, San Antonio, TX 78249

#### **16. Export packing charges, if applicable:** Not applicable

#### **17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level).**

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number can be used by ordering activities to obtain technical and/or ordering assistance:

**210-379-0404**

#### **18. Terms and conditions of rental, maintenance, and repair** N/A

132-51	SOC-SRV-00400	Socrata Principal Consultant - Socrata's Principal Consultants will provide technical and non-technical strategic consulting expertise to help plan, design, implement and launch your Dataset Discovery site. Price is per hour. (T&E Add'l)	\$232.53	USA
132-32	Soc-OD-B	The Socrata Open Data Portal enables government leaders to deliver on their transparency and digital government initiatives with unprecedented speed and costs savings. The Portal offers a complete software-as-a-service platform that unlocks the organization's data from its legacy silos and puts it into people's hands. It simplifies the entire data lifecycle, from capture and collection to distribution and consumption. Key Open Data Portal functionality includes: Socrata DataSpace: An elastic cloud-based data storage, indexing and retrieval service that simplifies data management and automatically optimizes access for a wide variety of data sources. Socrata Data Publishing Services: Easy-to-use tools for publishing and updating data from spreadsheets,	\$4,745.59	USA

file systems and transactional databases, including real-time automated publishing.

Socrata Data Discovery and Visualization: Consumer friendly interfaces that make it easy to discover data, explore it online, visualize it with charts and maps, and share it with others.

Socrata Open Data API (SODA): An open, standards-based API that automatically provides RESTful access and an expressive query language for every dataset.

Socrata Open Data Federation Services: A game-changing technology that enables two or more organizations to exchange and aggregate their data, with one click.

Socrata Data Player: A web widget that allows government agencies to embed live data, maps and charts on their agency websites.

Socrata Sitewide Analytics: Real-time analytics on usage, distribution and traffic patterns for each dataset in the Open Data Portal.

Socrata Mondara: Extends the open data experience to geospatial data that was previously only accessible to GIS experts. Mondara makes it easy for the other 99% of users to create rich online maps instantly, and use this valuable data to power location-based services.

Socrata API Foundry: a powerful wizard-based application that simplifies the creation, deployment and management of enterprise-class APIs for mission-critical cloud and mobile applications. It dynamically creates an API catalog featuring documentation, client code libraries, and an interactive test console for each API to help developers discover, explore, and start using your APIs right away. It also includes enterprise-class capabilities for IT administrators to control fine-grained API access and security, management of application tokens, throttling, and API analytics to monitor trends and usage patterns in real-time.

Usage Details:

- 150 Datasets
- Unlimited Views and Visualizations
- Unlimited Users
- Unlimited Open Data APIs
- 10 Premium APIs
- Up to 5 million API calls per month
- Unlimited Storage
- Up to 1 TB in bandwidth per month
- 5 Microsites
- Native Support for Geospatial Data
- Up to 50,000 Geocoding Requests per month
- Sitewide Usage Analytics

Price is per month.

132-32	Soc-OD-311	<p>A ready-to-deploy app that extends 311 service request systems to the web and enables effective self-service for residents. This map-based explorer allows residents to check on their service request, visualize what's happening in their neighborhood, and compare service levels across city departments. This app takes 1 dataset, which is updated directly from the city's 311 system.</p> <p>Usage Details:</p> <p>-1 API connection, or file upload from 311 system</p> <p>Price is per month.</p>	\$474.56	USA
132-32	Soc-OD-CB	<p>A ready-to-deploy app that provides easy, intuitive ways for any user to explore and visualize their government's expenditures, by department, by type, and by vendor, for any given date range. The intuitive consumer-style user interface allows users to visualize trends, compare expenditures across departments, find total spend by vendor, and drill-down to the checkbook-level data. The same app can be repurposed for budget exploration.</p> <p>Usage Details:</p> <p>-1 API Connection, or file upload from Expenditure database</p> <p>Price is per month.</p>	\$949.12	USA
132-32	Soc-OD-GIS	<p>Easily Integrates maps from an Esri environment into the Open Data Portal in order to allow GIS professionals to leverage their existing assets and infrastructure, while giving citizens a unified open data experience. For use with ESRI ArcGIS 10.x</p> <p>Usage Details:</p> <p>-Open Data Connector for ArcGIS 10.x</p> <p>Price is per month.</p>	\$949.12	USA
132-32	Soc-OD-EL	<p>A web and mobile application for disseminating and visualizing up-to-date election results, and ballot measures. The app also includes an interactive map for locating ballot drop boxes, with pertinent voter information. The app gives citizens an easy way to explore election results using interactive charts while offering the government organization a scalable system that streamlines frequent updates on web and mobile interfaces, as results are tabulated and counted, with no manual intervention.</p> <p>Usage Details:</p>	\$1,423.68	USA

		<p>-1 API connection, or file upload from election results system Price is per month.</p> <p>A comprehensive health indicator data warehouse and interactive dashboard that brings together trend data on up to 200 health system measures from multiple data sources to provide a picture of the status of the health system. It allows analysts, practioners and members of the public to quickly view data on a given topic from multiple sources; Compare national metrics with regional and state level metrics; See trends over time; Compare data across variables such as income, race, age, and insurance coverage type; View data in both graphical and table format; Explore the data, create custom visualizations, download and access the data programmatically via open APIs.</p> <p>Usage Details: -Interactive Dashboard for up to 200 Health Indicators Price is per month.</p> <p>Socrata API Foundry offers data-rich organizations a powerful new way to modernize their data integration infrastructure, participate in the data economy, and support developer ecosystems around their data. API Foundry extends any enterprise system or data source with Application Programming Interfaces (APIs) that can be created and deployed in minutes to internal IT programmers, partner organizations, or external developer communities.</p> <p>Socrata API Foundry includes powerful features that simplify the creation, deployment, and management of developer-ready APIs, including: A wizard-based application that allows a business analyst to create, customize, and deploy an API in minutes, from virtually any data source. Dynamic creation of an API catalog featuring documentation, client code libraries and an interactive test console for each API, to help developers discover, explore and start using your APIs right away. Enterprise-class capabilities for IT administrators to control fine-grained API access and security, manage application tokens, and allocate API resources in real-time. Internet-scale SLAs to support API deployments for mission-critical web and mobile applications and other enterprise integration interfaces. API analytics to monitor trends and application usage patterns in real-time.</p> <p>(API Foundry can be sold and deployed as a standalone product or seamlessly integrated into any Socrata product, including the Open Data Portal.) Usage Details: - API Catalog, with a Pack of 10 Premium APIs Price is per month.</p> <p>Native language at no cost. Socrata's DataCollect is a cloud-based platform that simplifies the design, deployment, and management of intelligent data capture apps from authorized users, on any modern device. DataCollect streamlines the process of collecting data from mobile workers to support inspections and other line-of-business field applications. DataCollect also enables government organizations and NGOs to crowd-source data from the public, for a variety of "citizen-reporter" applications ranging from emergency response management, to opinion surveys.

Socrata DataCollect creates intelligent data capture apps that offer speed, end-to-end simplicity and extreme flexibility. Key features include:

Drag-and-drop form designer with automatic optimization for mobile display on iOS and Android platforms. Configurable rules-based form validation, and application business logic to ensure data accuracy at the point of capture.

Data capture apps support simple, or multi-step campaigns that combine intelligent forms, business workflow and user management.

Seamless cloud synchronization and offline capabilities.

1-click app deployment with built-in integration to GPS location, notification services and camera functions on the device.

Smart reporting and usage analytics

Automatic integration with Socrata's cloud-based data store to aggregate, query, distribute and visualize data as it's captured.

Usage Details:

-Unlimited Users

-5 Data Collection Apps

-50 Active Forms

-50k Form Submissions per Month

Price is per month.

- Up to 150 hours

This package also includes the help from our marketing and public relations team to help you with your public launch. Including a PR kit, support for a kickoff event, and open data collateral to share with internal staff.

The Socrata Connected Performance Methodology (CPM) ensures a rapid and successful deployment of the GovStat Solution in order to support your performance management program with purpose-built technology and expert advisory services. As part of the engagement process, the Socrata team works closely with the your performance management program office, from project kickoff and setting a program charter, through to go-live and launch. The methodology maps to the key success steps in setting up a data-driven management program: 1- Setting and formulating strategic goals; 2- Collecting data and mapping it to key priorities; 3- Dynamically visualizing prevailing metrics and indicators; 4- Measuring progress against goals using internal dashboards; 5- Democratizing report creation and distribution; 6- Communicating progress to and engaging with citizens.

GovStat Launch Package- Basic, includes a mix of technical consulting and advisory services over the expected 12-week period:

- Kickoff call and up to (12) weekly meetings through launch date
- GovStat site setup including: DNS and SSL, site configuration and, styling,
- 2 Site Administration training sessions
- 2 Data Publishing and Visualization training sessions
- 2 Goal-setting and Dashboard Creation training sessions
- 2 Report creation and customizations training sessions
- Socrata-led initial data upload and visualization of up to 5 datasets
- Socrata-led initial setup of 1 dashboard with 1 complete goal
- Client-led, Socrata-assisted, end-to-end configuration of 2 more strategic goals, visualized on the organization's dashboard
- Enrollment in Socrata University GovStat 100- and 200-level classes
- Access to technical support and expert assistance throughout the project
- 15 hours of Advisory Services that can be allocated towards developing a project charter; Developing a data-driven goals framework; Successfully running a Stats Program and Stats Meetings; Reviewing internal communication; Best practices in engaging with citizens
- This package also includes active assistance from our marketing and public relations team to help craft and launch a successful communication strategy, including a PR kit, support for a kickoff event, organizing a webinar, and collateral to share with internal staff
- One onsite engagements of up to 3 days. The rest will be managed and delivered remotely using web and telephone conferencing
- Up to 60 Hours

government. GovStat helps public sector leaders bring data, collaboration, and citizen feedback into the decision making process. It simplifies data-driven management, from goal setting, to measuring performance against goals, to communicating progress with internal stakeholders and citizens.

GovStat takes advantage of Socrata's open data technologies to put performance data into employees' hands, so they can collect, visualize and share that data more easily. GovStat also introduces these unique design features:

Easy-to-use interfaces to organize performance data from multiple sources into one cloud-based "data warehouse" that all employees can access, without the need for user licenses.

A consistent language and common definitions for performance measurement across departments.

Dynamic dashboards that continuously review progress against goals and allow employees to understand how their programs are connected.

Automatic calculation and reporting of progress against strategic goals.

Intuitive drag-and-drop interfaces that give all employees the power to create dynamic reports, and share them with others, instantly.

An interactive public dashboard that gives citizens easy access to performance information so they can easily understand what their government is doing and offer feedback.

Usage Details:

SIN	Product Code	Product Description	GSA Price	Origin
132-33	dmb9150	Digital Media Bridge Screen Builder - A Windows application letting a customer graphically create and manage sets of digital signage/video-on-demand screens playable by the Digital Media Bridge Media Player. Using Screen Builder a customer can build and preview multiple channels of digital signage/video-on-demand screens in a stand-alone environment. Screen Builder also offers a publishing component where videos and control information can be automatically delivered to a content distribution service, like the Digital Media Bridge Sender, for delivery and automatic playback by one or more DMB Media Player platforms.	\$238.34	USA
132-33	dmb9150-01	Annual Renewal Maintenance - Digital Media Bridge Screen Builder	\$46.90	USA
132-33	dmb9100e	Digital Media Bridge Sender Enterprise - The sending platform of the Cilutions' content distribution service. It fits seamlessly within an enterprise infrastructure and offers a variety of interfaces useful for content distribution management. These are: SOAP Web Services, XML Command/Response, Web Form and E-mail interfaces. Users can send video and data to both IP Multicast and IP Unicast receivers running the Digital Media Bridge Receiver client. The Enterprise Edition supports Multi-user, Multi-channel, SNMP managed and Web Hosted configurations and can be staged in a clustered environment supporting fully redundant high availability.	\$23,929.47	USA
132-33	dmb9100e-01	Annual Renewal Maintenance - Digital Media Bridge Sender Enterprise	\$3,589.42	USA
132-33	dmb9100s	Digital Media Bridge Sender Standard - The sending platform of the Cilutions' content distribution service. It fits seamlessly within an enterprise infrastructure and offers a variety of interfaces useful for content distribution management. These are: SOAP Web Services, XML Command/Response, Web Form and E-mail interfaces. Users can send video and data to both IP Multicast and IP Unicast receivers running the Digital Media Bridge Receiver client. The Standard Edition is a single user stand-alone platform with no redundancy.	\$9,571.79	USA
132-33	dmb9100s-01	Annual Renewal Maintenance - Digital Media Bridge Sender Standard	\$1,435.77	USA
132-33	dmb9100x	Digital Media Bridge Sender Express - The sending platform of the Cilutions' content distribution service. It fits seamlessly within an enterprise infrastructure and offers a variety of interfaces useful for content distribution management. These are: SOAP Web Services, XML Command/Response, Web Form and E-mail interfaces. Users can send video and data to both IP Multicast and IP Unicast receivers running the Digital Media Bridge Receiver client. The Express Edition is a pre-packaged VMWare image for single channel usage.	\$2,680.10	USA
132-33	dmb9100x-01	Annual Renewal Maintenance - Digital Media Bridge Sender Express	\$402.02	USA

132-33	dmb9200	Digital Media Bridge Receiver Windows/Linux/Mac - An installable client or Set Top Box (STB) middleware serving as the receiving platform of the Cilutions' content distribution service. It offers an integrated web server supporting an XML interface for interaction with enterprise applications. The Receiver includes automatic content delivery notification and IPTV relay services to route streaming video to users on a destination network. The Digital Media Bridge (DMB) Receiver runs on Windows, Linux, Mac and STB platforms.	\$94.76	USA
132-33	dmb9200-01	Annual Renewal Maintenance - Digital Media Bridge Receiver Windows/Linux/Mac	\$14.22	USA
132-33	dmb9210	Digital Media Bridge Media Player Windows/Linux/Mac - A digital signage/video-on-demand or kiosk player application supporting fully configurable screen layouts and video playback with a robust set of digital signage/video-on-demand features. The DMB Media Player runs on set-top boxes, Windows, Linux and MAC platforms offering customers digital signage/video-on-demand as a software application and digital signage/video-on-demand in a plug-and-play set-top box appliance.	\$47.86	USA
132-33	dmb9210-01	Annual Renewal Maintenance - Digital Media Bridge Media Player Windows/Linux/Mac	\$7.18	USA
132-33	dmb9110	Digital Media Bridge SNMP Proxy Server - A Windows or Linux service providing connectivity between an SNMP Manager and Internet-deployed STB's. The SNMP Proxy Server is designed to work with the Digital Media Bridge SNMP Agent residing in one or more STBs.	\$1,914.36	USA
132-33	dmb9110-01	Annual Renewal Maintenance - Digital Media Bridge SNMP Proxy Server	\$287.15	USA
132-33	dmb9120	Digital Media Bridge Darwin Injector - The Cilutions Injector Service which relays a live video stream from an encoder into the Cilutions' Modified Darwin Streaming Server. The injector is a software process that can run as a Windows Service on the same machine as Darwin.	\$1,435.77	USA
132-33	dmb9120-01	Annual Renewal Maintenance - Digital Media Bridge Darwin Injector	\$215.37	USA
132-33	dmb9252	Digital Media Bridge Streaming Transport Receiver - A receiver proxy on the Amino STB with support for real-time packet loss and transport stream timing repair. This proxy works together with the Digital Media Bridge Darwin Injector and the Darwin Streaming Server to provide high quality video streaming service over the Internet.	\$9.57	USA
132-33	dmb9252-01	Annual Renewal Maintenance - Digital Media Bridge Streaming Transport Receiver	\$1.44	USA
132-33	dmb9130	Digital Media Bridge Telnet Proxy Server - A Windows or Linux service providing telnet connectivity to Internet-deployed STBs. The Telnet Proxy Server is designed to work with the Digital Media Bridge Telnet Agent residing in one or more STBs.	\$957.18	USA
132-33	dmb9130-01	Annual Renewal Maintenance - Digital Media Bridge Telnet Proxy Server	\$143.58	USA
132-51	dmb9800	Digital Media Bridge Support Engineer - Cilutions Digital Media Bridge Support Engineer will perform engineering services related to the set-up, customization, training, integration, installation and testing, configuration and development (e.g. product enhancement) and production use of the Digital Media Bridge products in a customer's environment. Price reflects usage on a single network. Multi-network terms negotiated separately. Minimum 2 months (27 hours a month). (Time&Materials add'l)	\$153.15	USA

132-51	dmb9801	Data Compression Engineer- Cilutions Data Compression Engineer will provide in-depth experience and knowledge of file-based compression algorithms, such as delta encoding, LZW, PPMD, BWT, etc. These compression methods radically reduce the size of complex file structures, including large files containing ASCII text, XML, and binary data such as images. This engineer will also have extensive experience in optimizing the ideal compression solution into a customer's existing network.	\$167.51	USA
132-51	dmb9802-1	General Services Software Junior Engineer (GSE1)- Cilutions General Services Software Junior Engineer (less than 4 years' experience) will provide general software development and support in the following areas: digital content distribution, IPTV, Internet video playback, digital signage, SNMP and Telnet network monitoring, with the following programming expertise: C++, C, Perl, Coldfusion, Flash, Linux, Windows, Java, XML, SOAP, and Web Services.	\$71.79	USA
132-51	dmb9802-2	General Services Software Engineer (GSE2)- Cilutions General Services Software Engineer (4 to 6 years' experience) will provide general software development and support in the following areas: digital content distribution, IPTV, Internet video playback, digital signage, SNMP and Telnet network monitoring, with the following programming expertise: C++, C, Perl, Coldfusion, Flash, Linux, Windows, Java, XML, SOAP, and Web Services.	\$119.65	USA
132-51	dmb9802-3	General Services Software Senior Engineer (GSE3)-Cilutions General Services Software Senior Engineer (more than 6 years' experience) will provide general software development and support in the following areas: digital content distribution, IPTV, Internet video playback, digital signage, SNMP and Telnet network monitoring, with the following programming expertise: C++, C, Perl, Coldfusion, Flash, Linux, Windows, Java, XML, SOAP, and Web Services.	\$167.51	USA
132-33	dmb9803	A digital signage/video-on-demand or kiosk player application supporting fully configurable screen layouts and video playback with a robust set of digital signage/video-on-demand features. The DMB Media Player offering customers digital signage/video-on-demand as a software application and digital signage/video-on-demand in a plug-and-play set-top box appliance. The player also includes the ability to retrieve external files for playback as well as SNMP and Telnet support.	\$94.76	USA
132-33	dmb9803-01	Annual support includes access to Cilutions support personnel as well as DMB Media Player upgrades.	\$18.19	USA

## **1c. Alamo City Engineering Services, Inc. Labor Category Descriptions**

### **1. Program Manager**

Directs and manages all aspects of IT System Development including financial management, contractual issues, evaluations of existing IT procedures and IT project development.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Develops and enforces work standards
2. Provides quality assurance and configuration management
3. Reviews work quality, assigns contractor schedules, and communicates goals, objectives, and policies of the organization to subordinates
4. Oversees financial management and administrative activities, such as budgeting, financial reporting, and manpower and resource planning
5. Performs complex evaluations of existing procedures, processes, techniques, models, and/or systems relating to management problems or contractual issues
6. Supervises and directs staff on a daily basis
7. Experience in project development life cycle phases from inception to deployment, with an ability to provide guidance and direction in these tasks areas as required

#### **JOB SPECIFICATIONS**

Requires a Bachelor's degree and fifteen (15) years experience in directing and managing IT systems development or twenty-five (25) years experience in the IT systems development field.

### **2. Senior IT Project Support Specialist**

Assists in preparing, editing and presenting graphics presentations for IT projects and/or proposals. Advisor to other IT support personnel. Requires high level of experience in IT software development and configuration procedures and policies.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Prepares and edits correspondence
2. Assists in the preparation and graphic presentations
3. Supports the development of IT contract deliverables and required software development reports
4. Acts as advisor to other IT support personnel

#### **JOB SPECIFICATIONS**

Requires an Associate's degree and five (5) years experience in graphic design and or IT proposal development; or fifteen (15) years of experience, managing the IT support proposal development team, and maintaining the required IT project reports and files.

### **3. Quality Assurance/Configuration Management Engineer**

Provides Quality Assurance review throughout the software development and configuration life cycle, providing IT technical guidance. Maintains high level of quality assurance for approval of major system installations.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Maintains the level of quality throughout the software life cycle
2. Conducts formal and informal reviews, at predetermined times, throughout the development software life cycle
3. Provides IT technical guidance for personnel performing software development tasks, including review of work products for accuracy, adherence to the IT design concept and to applicable standards
4. Review of software program documentation to assure compliance with client standards/requirements, and for progress in accordance with schedules
5. Coordinates IT problem solution and user satisfaction
6. Make recommendations, if needed, for approval of major IT system installations

#### **JOB SPECIFICATIONS**

Requires a Bachelor's degree and three (3) years of experience with software development/configuration; or fifteen (15) years experience in a quality assurance program for software development and configuration management.

#### **4. Senior System Support Specialist**

Supervises IT activities in the day to day configuration and operation of computer systems.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Performs system capacity analysis and planning, and optimizes system performance and resource utilization
2. Provides COMMERCIAL OFF THE SHELF installation, license management and maintenance, system configuration and modifications
3. Provides services to include system backup and restoration, user configurations, system privilege controls, role and users definitions, and dynamic upgrade and substitutions of components (memory, disk space, etc.) required in development and integration test beds and environment
4. Ensures computer systems resources are used in an efficient and effective manner
5. Provides highly technical expertise in the use of DATABASE MANAGEMENT SYSTEM. Evaluates and recommends DATABASE MANAGEMENT SYSTEM products to support validated user requirements
6. Provides assistance to users in resolving system problems, provides system backups, and system maintenance
7. Coordinates the resolution of production-related problems. Ensures production schedules are met

#### **JOB SPECIFICATIONS**

Requires an Associate's degree and six (6) years experience as a system support specialist; or ten (10) years of experience, supervising and managing the day-to-day activities of the configuration and operation of computer systems.

#### **5. System Support Specialist**

Performs system capacity analysis and planning, optimizing IT system performance and resource utilization.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Provides assistance to users in resolving system problems, provides system backups, and system maintenance
2. Supports COMMERCIAL OFF THE SHELF installation, license management and maintenance, system configuration and modifications
3. Provides services to include system backup and restoration, user configurations, role and users definitions, and assists in system upgrade and substitutions of components (memory, disk space etc.) required in development, integration test beds
4. Monitors computer systems resources
5. Coordinates the resolution of production-related problems
6. Supports the day to-day activities of configuration, and operation of the computer systems

#### **JOB SPECIFICATIONS**

Requires a high school diploma and four (4) years experience performing system capacity analysis, planning and optimizing system performance; or eight (8) years experience in system analysis, development and planning.

## **6. Systems Development Engineer**

Manages and participates in design, and development of IT systems, including evaluation, configuration and construction.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Proficient in engineering disciplines such as: electronic engineering, communications engineering
2. Information Technology including network engineering security, interoperability analysis, system standards, military operations (ground, sea, and air), program analysis, requirements analysis, program planning, and cost analysis

### **JOB SPECIFICATIONS**

Requires a Bachelor's degree and five (5) years experience as a System IT development engineer; or eleven (11) years experience applying an organization-wide set of disciplines for the planning, analysis, design, and construction of IT systems on a system-wide basis.

## **7. Associate Systems Development Engineer**

Supports IT systems development and integration efforts.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Understands the disciplines for planning, analysis, design, and construction of systems on a system -wide basis or across a major sector of the enterprise
2. Knowledgeable in one or more IT disciplines such as: electronic engineering, communications engineering, information engineering, network engineering security, interoperability analysis, system standards, program analysis, requirements analysis, program planning and cost analysis

### **JOB SPECIFICATIONS**

Requires a bachelor's degree and five (5) years of experience in IT system development; or ten (10) years experience in supporting IT systems development and integration efforts.

## **8. Hardware Support Specialist**

Coordinates hardware installation and experienced in network and database security systems.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Provides knowledge and experience in one or more disciplines or procedures including hardware installation, repair, calibrating and modifying electronic equipment, unpacking, inspection, test and configuration
2. Trouble shooting functions

### **JOB SPECIFICATIONS**

Requires a high school diploma and five (5) years experience with network and database security systems; or seven (7) years experience with network and database security systems.

## **9. Associate Hardware Support Specialist**

Experience with hardware support and assists the Hardware Support Specialist.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Provides some knowledge and support in one discipline or procedure including hardware installation, repair, calibrating and modifying electronic equipment, unpacking, inspection, test and configuration
2. IT Help Desk and Trouble shooting functions

#### **JOB SPECIFICATIONS**

Requires a high school diploma and one (1) year experience with database security systems; or three (3) years experience in database security management.

### **10. Systems Support Engineer**

Experienced in Information Systems design and management.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Provides technical expertise for the entire IT system life cycle including concept development, requirements development, system specifications, system analysis, baseline management, IT architectural development, test specifications, product evaluations, modeling, and simulation
2. Provides configuration management, IT system safety, security, and reliability as well as the IT system maintenance, and domain-specific expertise

#### **JOB SPECIFICATIONS**

Requires a bachelor's degree and four (4) years of experience as IT Systems Support Engineer; or fifteen (15) years of experience in both information systems design and management.

### **11. Systems Engineer/Architect**

Supervises system analysis and develops design methodologies to deal with complex IT systems.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Expert knowledge of IT systems analysis and design methodologies and tools
2. Experience with large and complex IT systems
3. Duties may include performing, leading, and coordinating the analysis and design of IT system architectures to include software, hardware, and communications and system development, integration, and migration

#### **JOB SPECIFICATIONS**

Requires a bachelor's degree and ten (10) years experience as an IT System Engineer; or fifteen (15) years experience in IT system engineering and architecture.

### **12. Associate Systems Engineer/Architect**

Assist the Systems Engineer/Architect in design and configuration of IT systems.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Relevant experience includes, but is not limited to, knowledge of IT system analysis and design methodologies and tools, and experience with large and complex systems

2. Duties may include performing and sometimes leading architecture analysis and design; system development, integration, and migration

### **JOB SPECIFICATIONS**

Requires a bachelor's degree and seven (7) years experience in IT system engineering; or twelve (12) years experience in the IT systems engineering/architecture field.

### **13. Senior Systems Administrator**

Responsible for overseeing performing IT systems and network management/administration responsibilities.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Provides expertise to properly maintain Information Technology systems operations, monitoring application/system software and hardware operations, routine/high priority system problem identification, and high priority corrective action
2. Coordinates system resource availability with database analysts, system and application programmers, and other users
3. Performs/oversees systems administration and network management/administration responsibilities
4. Ensures compliance with electronic and physical security procedures and standards
5. Directs and train users
6. Provides continuous liaison with users and project staff to identify unique and/or common difficulties and prepare plans for their resolution

### **JOB SPECIFICATIONS**

Requires a bachelor's degree and five (5) years of experience performing IT systems and network management/administration responsibilities; or twelve (12) years experience with IT systems and network management.

### **14. Systems Administrator**

Experienced in computer systems operations and maintenance.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Provides customer support to provide expertise to properly maintain Information Technology systems operations, monitoring application/system software and hardware operations, routine/high priority system problem identification, and high priority corrective action
2. Provides continuous liaison with users to identify unique and/or common difficulties and prepare plans for their resolution
3. Assists with the coordination of system resource availability with database analysts, system and application programmers, and other users
4. Performs and oversees systems administration and network management/administration responsibilities
5. Ensures/assists with ensuring compliance with electronic and physical security procedures and standards

### **JOB SPECIFICATIONS**

Requires an associate's degree and six (6) years of experience in computer systems operations/maintenance; or ten (10) years experience in computer systems operations/maintenance field.

### **15. Curriculum Development Specialist**

Responsible for developing and implementing specific client IT instructional training programs for the software implementation and configuration.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Develops and prepares IT programs for client training scenarios and approaches for particular client information
2. Identifies the best approach in meeting specific IT program requirements
3. Identifies both IT hardware and software components, considers different approaches for each client systems application training

#### **JOB SPECIFICATIONS**

Requires a bachelor's degree and three (3) years of experience in developing and implementing IT programs; or five (5) years experience developing and implementing IT programs.

#### **16. Senior Technical Writer**

Experienced in applying word processing techniques to IT and technical subject matter. Ability to convey and communicate knowledge of ADP systems.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Highly developed writing and verbal communication skills required
2. Ability to effectively communicate with personnel at all levels
3. Excellent computer and word processing skills to produce all required written work in final form
4. IT hardware/software descriptions

#### **JOB SPECIFICATIONS**

Requires an associate's degree and eight (8) years experience as a Technical Writer in an IT environment; or fifteen (15) years in business administration/IT administration in an IT environment.

#### **17. Technical Writer**

Experienced in applying word processing techniques to technical or IT subject matter. Ability to convey and communicate knowledge of ADP systems. Assists the Senior Technical Writer.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Highly developed writing and verbal communication skills required
2. Ability to effectively communicate with personnel at all levels
3. Excellent computer and word processing skills to produce all required written work in final form
4. IT hardware/software descriptions

#### **JOB SPECIFICATIONS**

Requires an associate's degree and four (4) years experience as a Technical Writer in an IT environment; or seven (7) years in IT document reporting and administration in an IT environment.

#### **18. Computer Systems Specialist**

Coordinates mini or client server systems.

#### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Relevant experience includes, but is not limited to, operating mainframe, mini or client/server based computer systems
2. Duties may include monitoring and supporting computer processing, coordinating input, output, and file media

#### **JOB SPECIFICATIONS**

Requires an associate's degree or three (3) years experience as a Computer Specialist; or six (6) years experience with IT systems, specifically mini and client servers.

## **19. Information Assurance Manager**

Duties include overall IT system security, IT systems security testing, and assurance that certifications and accreditations are current and effective.

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Responsible for the overall security integrity of all IT systems
2. Must ensure all systems are security tested, certified, and accredited
3. Must maintain a system development life cycle for each system to ensure all necessary security phases are met
4. Maintain a security patch management database and a configuration management database to ensure the integrity of the systems
5. Be aware of all security alerts and advisories released from vendors and software manufacturers
6. Must be able to write detailed incident reports and present them to government officials
7. Responsibilities also include management of a security team to provide incident response, security testing, Federal Information Security Management Act reporting, and documentation integrity. Documentation includes all documents pertaining to Certification and Accreditation (C&A) including system security plans, risk assessments, network diagrams, environmental hazards, incidents, and life cycle documents

### **JOB SPECIFICATIONS**

Requires a Bachelors Degree and ten (10) years of experience, or fifteen (15) years of experience managing the information assurance procedures for IT systems security.

## **20. Classified Tripwire Engineer**

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Installation and configuration of Tripwire configuration management and audit software in a classified environment

### **JOB SPECIFICATIONS**

Requires ten (10) years of network and security experience, maintains Tripwire installation certification and maintains Top Secret security clearance.

## **21. Unclassified Tripwire Engineer**

### **PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Installation and configuration of Tripwire configuration management and audit software in a standard environment

### **JOB SPECIFICATIONS**

Requires ten (10) years of network and security experience and maintains Tripwire installation certification.

**22.     Senior Microsoft Engineer**

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Creates solutions using Microsoft Products. Experienced with Microsoft Products and Services

**JOB SPECIFICATIONS**

Certified Microsoft Engineer

**23.     Microsoft Engineer**

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Creates solutions using Microsoft Products. Experienced with Microsoft Products and Services

**JOB SPECIFICATIONS**

Certified Microsoft Engineer

**24.     Junior Microsoft Engineer**

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Creates solutions using Microsoft Products. Experienced with Microsoft Products and Services

**JOB SPECIFICATIONS**

Certified Microsoft Engineer

**25.     Senior 1E Engineer**

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Creates Solutions using 1E Products. Experienced with 1E Products and Services

**JOB SPECIFICATIONS**

Certified 1E Engineer

**26.     1E Engineer**

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Creates Solutions using 1E Products. Experienced with 1E Products and Services

**JOB SPECIFICATIONS**

Certified 1E Engineer

**27.     Junior 1E Engineer**

**PRINCIPAL DUTIES AND RESPONSIBILITIES**

1. Creates Solutions using 1E Products. Experienced with 1E Products and Services

**JOB SPECIFICATIONS**

Certified 1E Engineer
