Socrata Making Data Social™

Product Number	Product Name	Product Description	MSRP GBP
Soc-OD-B	Socrata Open Data Portal- Basic	The Socrata Open Data Portal enables government leaders to deliver on their transparency and digital government initiatives with unprecedented speed and costs savings. The Portal offers a complete software-as-a-service platform that unlocks the organization's data from its legacy silos and puts it into people's hands. It simplifies the entire data lifecycle, from capture and collection to distribution and consumption. Key Open Data Portal functionality includes: Socrata DataSpace: Socrata Data Discovery and Visualization: Socrata Open Data API (SODA): Socrata Open Data Federation Services: Socrata Data Player: Socrata Sitewide Analytics: Socrata API Foundry: Usage Details: • Up to 150 Datasets • Unlimited Views and Visualizations • Unlimited Users • Unlimited Open Data APIs • 10 Premium APIs • Up to 5 million API calls per month • Unlimited Storage • Up to 1 TB in bandwidth per month • 5 Microsites • Native Support for Geospatial Data • Up to 50,000 Geocoding Requests per month • Sitewide Usage Analytics	£9
Soc-OD-Ex	Socrata Open Data Portal- Extended	The Socrata Open Data Portal enables government leaders to deliver on their transparency and digital government initiatives with unprecedented speed and costs savings. The Portal offers a complete software-as-a-service platform that unlocks the organization's data from its legacy silos and puts it into people's hands. It simplifies the entire data lifecycle, from capture and collection to distribution and consumption. Key Open Data Portal functionality includes: Socrata DataSpace: Socrata Data Discovery and Visualization: Socrata Open Data API (SODA): Socrata Open Data Federation Services: Socrata Data Player: Socrata Sitewide Analytics: Socrata API Foundry: Usage Details: • Up to 500 Datasets • Unlimited Views and Visualizations • Unlimited Users • Unlimited Open Data APIs • 10 Premium APIs • Up to 5 million API calls per month • Unlimited Storage • Up to 1 TB in bandwidth per month • 5 Microsites • Native Support for Geospatial Data • Up to 50,000 Geocoding Requests per month • Sitewide Usage Analytics	£6
Soc-OD-Ent	Socrata Open Data Portal- Enterprise	The Socrata Open Data Portal enables government leaders to deliver on their transparency and digital government initiatives with unprecedented speed and costs savings. The Portal offers a complete software-as-a-service platform that unlocks the organization's data from its legacy silos and puts it into people's hands. It simplifies the entire data lifecycle, from capture and collection to distribution and consumption. Key Open Data Portal functionality includes: Socrata DataSpace: Socrata Data Discovery and Visualization: Socrata Open Data API (SODA): Socrata Open Data Federation Services: Socrata Data Player: Socrata Sitewide Analytics: Socrata API Foundry: Usage Details: • Thousands of Datasets (discounts apply on larger volume of datasets) • Unlimited Views and Visualizations • Unlimited Users • Unlimited Open Data APIs • 10 Premium APIs • Up to 5 million API calls per month • Unlimited Storage • Up to 1 TB in bandwidth per month • 5 Microsites • Native Support for Geospatial Data • Up to 50,000 Geocoding Requests per month • Sitewide Usage Analytics	£3

Soc-OD-311	Socrata Open 311 Explorer	A ready-to-deploy app that extends 311 service request systems to the web and enables effective self-service for residents. This map-based explorer allows residents to check on their service request, visualize what's happening in their neighborhood, and compare service levels across city departments. This app takes 1 dataset, which is updated directly from the city's 311 system. Usage Details: -1 API connection, or file upload from 311 system Price is per month.	£400
Soc-OD-CB	Socrata Open Checkbook Explorer	A ready-to-deploy app that provides easy, intuitive ways for any user to explore and visualize their government's expenditures, by department, by type, and by vendor, for any given date range. The intuitive consumer-style user interface allows users to visualize trends, compare expenditures across departments, find total spend by vendor, and drill-down to the checkbook-level data. The same app can be repurposed for budget exploration. Usage Details: -1 API Connection, or file upload from Expenditure database Price is per month.	£800
Soc-OD-GIS	Socrata ArcGIS Connect	Easily Integrates maps from an Esri environment into the Open Data Portal in order to allow GIS professionals to leverage their existing assets and infrastructure, while giving citizens a unified open data experience. For use with ESRI ArcGIS 10.x Usage Details: -Open Data Connector for ArcGIS 10.x Price is per month.	£800
Soc-OD-EL	Socrata Open Elections Explorer	A web and mobile application for disseminating and visualizing up-to-date election results, and ballot measures. The app also includes an interactive map for locating ballot drop boxes, with pertinent voter information. The app gives citizens an easy way to explore election results using interactive charts while offering the government organization a scalable system that streamlines frequent updates on web and mobile interfaces, as results are tabulated and counted, with no manual intervention. Usage Details: -1 API connection, or file upload from election results system Price is per month.	£1,200
Soc-OD-HM	Socrata Health Indicators Explorer	A comprehensive health indicator data warehouse and interactive dashboard that brings together trend data on up to 200 health system measures from multiple data sources to provide a picture of the status of the health system. It allows analysts, practioners and members of the public to quickly view data on a given topic from multiple sources; Compare national metrics with regional and state level metrics; See trends over time; Compare data across variables such as income, race, age, and insurance coverage type; View data in both graphical and table format; Explore the data, create custom visualizations, download and access the data programmatically via open APIs. Usage Details: -Interactive Dashboard for up to 200 Health Indicators Price is per month.	£4,000
Soc-OD-DS	Socrata Custom Data Exploration and Visualization Apps	Through the use of Socrata's DataSlate, a data experience content and creation tool, we can create custom experiences to match your desired need. This drag-and-drop design tools allows us to create beautiful web and mobile information products for our clients that bring the citizen experience to the modern consumer era. Custom experiences can be scoped and delivered in a fast and cost effective way. Usage Details: -Will require an instance of the Socrata Platform and account for the number of DataSlate Templates. Price is per month.	Price according to Scope
Soc-AF-S	Socrata API Foundry	Socrata API Foundry offers data-rich organizations a powerful new way to modernize their data integration infrastructure, participate in the data economy, and support developer ecosystems around their data. API Foundry extends any enterprise system or data source with Application Programming Interfaces (APIs) that can be created and deployed in minutes to internal IT programmers, partner organizations, or external developer communities. Socrata API Foundry includes powerful features that simplify the creation, deployment, and management of developer-ready APIs, including: A wizard-based application that allows a business analyst to create, customize, and deploy an API in minutes, from virtually any data source. Dynamic creation of an API catalog featuring documentation, client code libraries and an interactive test console for each API, to help developers discover, explore and start using your APIs right away. Enterprise-class capabilities for IT administrators to control fine-grained API access and security, manage application tokens, and allocate API resources in real-time. Internet-scale SLAs to support API deployments for mission-critical web and mobile applications and other enterprise integration interfaces. API analytics to monitor trends and application usage patterns in real-time. (API Foundry can be sold and deployed as a standalone product or seamlessly integrated into any Socrata product, including the Open Data Portal. API Foundry bundles are priced above. Pricing here is standalone.) Usage Details: - API Catalog, with a Pack of 10 Premium APIs Price is per month.	£1,600
Soc-OD-MS	Microsite Packs	Microsites feature allows a parent organization in a large-scale deployment to provide branded microsites to its smaller city and county partners, on a shared open data portal. This shared services model supports the creation of regional data hubs, and allows multiple jurisdictions to pool their data for economies of scale and reach. Citizens benefit from a unified data access experience, while government participants enjoy greater collaboration and deeper insights. Usage Details: -Microsotes are bundled in open data portal [packages, above.-Microsite packs include 5 Microsites -Each Microsite has a limit of 50 datasets -Microsites share the usage limits of the parent's site Price is per pack per month.	£800
Soc-OD-Lan-EN Soc-OD-Lan-ES Soc-OD-Lan-FR Soc-OD-Lan-DE Soc-OD-Lan-IT Soc-OD-Lan-PO	Socrata Open Data Additional Language Packs	Native language at no cost. A customer may choose to localize the Socrata Open Data Portal, or Socrata Govstat in any Western Language, including English, Spanish, French, Italian, German and Portuguese. The customer will supply translated content in text. Available Languages: - English - Español - Français - Deutsch - Italiano - Português Price is per additional language per month.	£800

Soc-DC-B	Socrata Data Collect – Basic	Socrata's DataCollect is a cloud-based platform that simplifies the design, deployment, and management of intelligent data capture apps from authorized users, on any modern device. DataCollect streamlines the process of collecting data from mobile workers to support inspections and other line-of-business field applications. DataCollect also enables government organizations and NGOs to crowd-source data from the public, for a variety of "citizen-reporter" applications ranging from emergency response management, to opinion surveys. Socrata DataCollect creates intelligent data capture apps that offer speed, end-to-end simplicity and extreme flexibility. Key features include: Drag-and-drop form designer with automatic optimization for mobile display on iOS and Android platforms. Configurable rules-based form validation, and application business logic to ensure data accuracy at the point of capture. Data capture apps support simple, or multi-step campaigns that combine intelligent forms, business workflow and user management. Seamless cloud synchronization and offline capabilities. 1-click app deployment with built-in integration to GPS location, notification services and camera functions on the device. Smart reporting and usage analytics Automatic integration with Socrata's cloud-based data store to aggregate, query, distribute and visualize data as it's captured. Usage Details: -Unlimited Users -5 Data Collection Apps -50 Active Forms -50k Form Submissions per Month Price is per month.	£4,000
Soc-DC-Ex	Socrata Data Collect – Extended	Socrata's DataCollect is a cloud-based platform that simplifies the design, deployment, and management of intelligent data capture apps from authorized users, on any modern device. Soc-PS-OSA	Outsourced Solution Administration	Outsourced Solution Administration (OSA) is designed for Customers that would like to use a Socrata resource to outsource the management, monitoring, and administration of their Socrata deployment. A named Socrata Client Services resource will be assigned to help administer the Customer's application with specifics to be determined based on the Customer's business needs. Typical services include data curation, data consultation, data cleansing, site design and branding, graphic design, and administrative training. A single unit of this package includes up to 10 hours of OSA services per month for a set term. Up to 10 blocks can be purchased. All monthly hours expire at the end of given month. Customer is responsible for Socrata's travel and expenses in the event of an onsite visit, however this service is generally provided in a remote fashion. Price is per month.	£799
Soc-GS-B	Socrata GovStat – Basic	Socrata's GovStat is a performance measurement and reporting platform, designed specifically for government. GovStat helps public sector leaders bring data, collaboration, and citizen feedback into the decision making process. It simplifies data-driven management, from goal setting, to measuring performance against goals, to communicating progress with internal stakeholders and citizens. GovStat takes advantage of Socrata's open data technologies to put performance data into employees' hands, so they can collect, visualize and share that data more easily. GovStat also introduces these unique design features: Easy-to-use interfaces to organize performance data from multiple sources into one cloud-based "data warehouse" that all employees can access, without the need for user licenses. A consistent language and common definitions for performance measurement across departments. Dynamic dashboards that continuously review progress against goals and allow employees to understand how their programs are connected. Automatic calculation and reporting of progress against strategic goals. Intuitive drag-and-drop interfaces that give all employees the power to create dynamic reports, and share them with others, instantly. An interactive public dashboard that gives citizens easy access to performance information so they can easily understand what their government is doing and offer feedback. Usage Details: -2 Dashboards -20 Goals -150 Datasets - Up to 5 million API calls per month - Unlimited Storage - Up to 1 TB in bandwidth per month -Unlimited Reports -Unlimited Users Price is per month.	£6,000
Soc-GS-Ex	Socrata GovStat – Extended	Socrata's GovStat is a performance measurement and reporting platform, designed specifically for government. GovStat helps public sector leaders bring data, collaboration, and citizen feedback into the decision making process. It simplifies data-driven management, from goal setting, to measuring performance against goals, to communicating progress with internal stakeholders and citizens.
